

Sesame Street, That's How We Got Here

I'm a pretty flower
The same thing goes for me
We started out as seeds and grew
That's how we came to be
We grew beneath the ground
Kept growing every day
We made it to the top
And now we're really proud to say

That's how we got here
That's how we got here
That's how we got here
We grew up from the ground
That's how we got here
That's how we got here
That's how we got here
And we're glad that we're around

I'm a baby sparrow
But didn't used to be
I grew inside an egg
My mother sat a lot on me
I grew inside an egg
That's how I came about
I kept on growing bigger
And one day I hatched right out

That's how I got here
That's how I got here

That's how I got here
Yes I hatched right from an egg
(flowers) We're from the ground
That's how we got here
That's how we got here
That's how we got here
And we're glad that we're around

We are baby bunnies
With soft and fluffy fur
We grew inside our Mom
And then we came right out of her
We grew inside our Mom
Grew bigger every day
And then when we were ready
We came out and now we say

That's how we got here
That's how we got here
That's how we got here
We grew inside our Mom
(bird) Inside an egg
(flowers) Below the ground
That's how we got here
That's how we got here
That's how we got here
And we're glad that we're around
