

# Seven Nations, Green

C'mon Jamie we've got, we've got to hurry baby  
We've got our tickets bought  
We've got to make tracks, lady

Isn't that just me?  
I'm always lost in the future  
Making plans for some new scene  
I'm always lost in some far off land  
Looking for a deeper shade of Green  
But Jamie doesn't mind at all  
She likes it that way

Well, I've been thinkin', and I've been drinkin'  
And I still cannot find a better place to come home to  
It drives me crazy, all these maybe's  
But still you're on the way I always come running back to

Isn't that just me?  
I'm always lost in the future  
Making plans for some new scene  
I'm always lost in some far off land  
Looking for a deeper shade of Green  
But Jamie doesn't mind at all  
She likes it that way

Lost in the future and I'm looking for  
I'm looking for that scene  
Lost in the future and I'm looking for  
I'm looking for that Green  
She likes it that way  
She likes it that way, when she likes it  
She likes it that way.
