

# Seven Nations, Very Nice

Let's go play outside you seek I'll go hide  
wrong move you're it now it's truly just a game  
let's go fight with John he's strange he's always wrong  
let's build a church so we can have a place to pray

I know something about religion  
I know something about this life  
and I think there lies your contradiction  
it's all very nice it's all very nice  
it's very nice

We're so glad you came today's lesson is the killing game  
we've found some other gang who thinks that we are wrong  
as your leader I (I) say eye for an eye  
maybe let 'em go if they admit that we are right

I know something about religion  
I know something about this life  
and I think there lies your contradiction  
it's all very nice it's all very nice  
it's very nice  
it's very nice  
it's so nice to have you talk with me for awhile  
so very nice

I know something about religion  
I know something about this life  
and I think there lies your contradiction  
it's all very nice it's all very nice  
it's very nice
