

Seven Nations, Wonderful

It's all new again
everything is wonderful
every time you tell yourself
this is the way
the way that you should be
and I know now
why you never sleep at night
you never like to be alone
still everything/everything's alright

and I won't even know I missed you on the phone
and I won't even know you called
and I won't die I won't cry I won't even say goodbye
still you say that I am so wonderful

And I think it's beautiful
when you say the sky is blue
even when it's dark outside
still you say
the sun will shine for you

and I won't even know I missed you on the phone
and I won't even know you called
and I won't die I won't cry I won't even say goodbye
still you say that I am so wonderful
not heaven sent
or heaven blessed
I'm not even second best
still you say that I am so wonderful

Everything is wonderful
beautiful is everything
in your pretty eyes
everything is wonderful
beautiful is everything

and I won't die I won't cry I won't even say goodbye
still you say that I am so wonderful
not heaven sent
or heaven blessed
I'm not even second best
still you say that I am so wonderful
so wonderful so beautiful
you're wonderful
and beautiful
