

# Seven Witches, In A Small Child's Room

Awake I have been so alone  
Afraid to close my eyes  
I'm waiting for the dawn

Alone in my shadowed room  
Sitting here all by myself  
Morning will be here soon - morning  
will be here soon

[Chorus:]  
In a small child's room, here I am  
again / In a small child's room  
here I am alone

The night I know what it hides  
Things that come and get me now  
Things that crawl and slide  
Oh no - I think I hear one now  
Scratching at my closet door -  
Begging me to let it out - begging me to  
let it out

[Chorus]

The time I watch it crawl slow  
When will the sun rise again  
Making the bad things go  
The sheets are up over my head  
Now I realize there's something  
Under the bed - There's something  
Under my bed

[Chorus]

They came once again to take me  
Away - but this time I was  
Not theirs to take

They tried without fail to pull  
Me through their void  
I try to tell but no one believes  
This boy
