

# Seven Witches, Nightmare (The Devil Inside)

I've got this feeling and it just won't go  
Some dark intention in my mind you know  
I walk these streets with madness on my mind  
Stay far away and don't you look behind

Cold dreary morning got no stars in my eyes  
Strayed from the pack now hear the hungry wolf cry  
Just passing through you'd better step aside  
Because if you don't you will be taken for a ride

[Chorus:]  
Nightmare - trapped inside  
Nightmare - Look into my eyes  
Nightmare - Hear the children cry  
Nightmare - Got the devil, got the devil inside

As I take you by the hand  
I'm sure that you'll understand  
Come child I've got something for you  
You'll see the world and more before we're through

[Chorus]
