

# Seven Witches, Pain

All you feel, you feel it, its all around  
Watching you falter, the eyes you burn  
Said what you want, you said your peace  
I dont want to hear it

The pain that you feel  
Hope its bringing you down  
The pain that you feel

What you want, I want it, give it to me now  
Thats your problem, take care of yourself  
You hypocrite, telling me to quit  
Time and time again

The pain that you feel  
Hope its bringing you down  
The pain that you feel

I told you you were gonna feel pain

The pain that you feel  
Hope its bringing you down  
The pain that you feel
