

# Sevendust, Assdrop

Again I try and change my ways  
Something for some reason  
Takes me from you again  
Time nor season (SEASON)  
Burnin' for a reason  
Killin' myself with guilt  
Gave nothin' - taking all  
How my life has changed - [REPEAT]  
Was it ever sacred

Feel it...  
Let it go...  
I know  
I know...what you...feel

Step down on the slivering snake  
Rescue yourself from the prick  
End it  
Make it fade

Can I get a witness  
Can I get a witness from this rage (RAGE)  
Everyday (RAGE)  
Suffocate  
From the pain  
What the fuck - can't believe what you said  
Motherfuckers out there  
Don't even know me  
Gave nothin' - takin' all  
How my life has changed  
Feel it...  
Let it go...  
I know (what you said)

Step down on the slivering snake  
Rescue yourself from the prick  
End it, make it fade  
Get up, get up, get up, get up  
[repeat]

Feel it...  
Let it go...  
I know

Step down on the slivering snake  
Rescue yourself from the prick  
End it, make it fade  
[repeat]
