

Sevendust, Crucified

So much pain to ease my simple mind
No hope - I've been crucified
And no one seems to care

(Don't you feel like a bitch)
(Don't promise shit you'll never be)
(Don't you feel like a bitch)
(Don't promise shit you'll never be)

The first time I knew you lied
I ended up crucified
My hate you wear for my cross you bear
It's for me I swear

What's with you
You leech off my desire
Faceless name
So untrue you're wasting away

(Don't you feel like a,
(Don't you feel like a,
(Don't you feel like a shit)
(Don't promise shit you'll never be)

[Chorus repeat 4x]
