

Sevendust, Face

Come along with me on an acid trip
I take your mind to a terminal bliss
You're bound and gagged
Ah ha ha ha
Motherfuckers I laugh

This chick that stayed with me last night
I despise all the reasons she stayed the night
I swear she screamed
She screamed so softly

Rape

Days go by the last so long
She's still tired she wants to go home
I can't let her get away
I promise one day she'll pray for me
To forgive for all I've done
It ain't easy that's what she said
I swear she screamed
She screamed so softly

Rape me
Don't make me wait [repeat]
You fuckin' disgrace

I love the pain [repeat]

Disgusted with myself
About what I've done
I can't imagine it'd be so much fun
It lasted so long
The trip went on and on and on
And then she said to me
Remember these words I say to me
I swear she screamed
She screamed so softly

Rape me
Don't make me wait [repeat]
You fuckin' disgrace
I love the pain [repeat 2x]

Rape me
Don't make me wait [repeat]
I love the pain [repeat 2x]
