

Sevendust, Fence

Collect the blood until it's empty
Bury the truth until it's way too late to use
All the abuse is never ending
But who's to blame when we were born to light the fuse
How long
Will it take till it's over
How long
Till you take everything from me

When do we know
How long we can break it
Where do we go
To have some
Will we see it again
We've been waiting to
Feel how it goes
Been down so long that the bottoms up

How long
How long

Fell out of line looking for safety
Sick of the lies and all the take take take
Hard to believe I ever faked it
(Fuck it, it's the end of what you knew)
Time to light the fuse

How long
Will it take till it's over
How long
Till you take everything from me

When do we know
How long we can break it
Where do we go
To have some
Will we see it again
We've been waiting to
Feel how it goes
Been down so long that the bottoms up

When do we know
How long we can break it
Where do we go
To have some
Will we see it again
We've been waiting to
Feel how it goes
Been down so long that the bottoms up

So long that the bottoms up
So long that the bottoms up
