

# Sevendust, Gone

Another day away from home another trip  
To kill another place I've never been  
Another day in hell  
Another day in a crowded room...another place  
To bleed...another world that your blind to  
That I've already seen

[Chorus:]

When I'm gone  
Don't fill the space that still belongs to me  
When I'm gone...say hello for me  
When I'm gone  
Think about what all this does to me  
When I'm gone...say hello for me

Another piece of me is dead...and I'm  
Afraid of the blind...leading the blind until  
Was this all for something...that I give for  
Nothin...stop with the fake delivery  
Stuck in the middle I'm gone

[Chorus:]

When I'm gone  
Don't fill the space that still belongs to me  
When I'm gone...say hello for me  
When I'm gone  
Think about what all this does to me  
When I'm gone...say hello for me
