

# Sevendust, Waffle

A Universe to fill  
I cant scratch the surface now  
A slow pain still,  
Whys everyone watching?  
It's like I'm real tired of the clones  
I'm real tired of the clones

Whatever you say  
Whatever you say  
Whatever you say

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light

Where's the space i fill  
Where's the sympathy I KILLED  
I need to find a meaning  
I'm useless, I'M USELESS  
Trapped inside my own web

Whatever you say  
Whatever you say  
Whatever you say

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light

When I'm alone  
I stare at nothingness  
Painful silence  
Painful silence kills

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light

(repeat)  
Whatever you say  
Whatever you, you say

Bring me a light  
Make my life worth something more  
Show me a light  
Bring a light
