

Sevenglory, Lay It All Down

I found a secret beyond the great blue sky
Don't wanna keep it
keep it locked inside
It's killing me now knowing why
that everything I do leaves me empty inside

I don't wanna wait another day, right now
Lay it all down, lay it all down
Any other way, we'll make a change, right now
Lay it all down, lay it all down
Beyond the fiction
Behind the magic show
Beneath the photograph
Below the great unknown
It's all around me
It's got me locked inside
I need to getaway before I run and hide
