

Seventh Wonder, A Day Away

Great fun!

Climb up way higher than the sun!

The ripe ones so far out but

If you fall.. I will call you a loser

one drop of blood brother

I'll mix with yours!

Poor child! Clean yourself

Hurry off to your room, now go

The wrong I've done

I guess I'll never know!

A day away from the playground

Far from every dream

This ain't the life of a hero...

Wrong or right, in the air tonight

Come daylight!

We'll sneak out...

Careful don't wake my mother up

I'll be back before daybreak cause

"Desperate times

call for desperate measures!"

Exciting adventure now lies ahead

Let's go! Inside I hear the warnings

Please don't let me down

It's so dangerous on the darker side of the town

So stay away from the playground

Far from broken dreams

Behind the blinds in that window

I am right! Now turn off the light and
Sleep! Goodnight!

I've been dreaming forever and ever
Take my hand let's go to another...
Place where we can lose ourselves in games
And we don't have to be...

One day away from the playground
Far from every dream
This ain't the life of a hero
Wrong or right, in the air tonight
Come daylight!
