

Sha Boom, Let's Party

Verse:

All I want
To tell you what it's all about
Tell you when to scream and shout
Then you're gonna let it all out

All I know
Is the feeling that is starting to grow
When everybody joins in the show
From New York thru to Tokyo

Refr:

Let's party,
Let's party all over the world
Party party
Making waves all over the world
Come on every boy and girl, take it to the top
Get up all and party till you drop
Let's party,
Party party

verse:

All I want
To tell you how to spend your time
Tell you when to draw the line
Now you've gotta make up your mind

We all know
that rockin' was the ticket to go
From London thru to Mexico
Tune it to your radio

Repeat refr

Guitar solo

Repeat refr
