

Shabutie, Wake Up

Eeeeeeeee oh! Now!

Wake up!

I'm on the inside
You can't punish the sane
oh how weak you stand
I'm at your strong side
Wake up Dad, I'm a man
Can you stomach this?
I've licked the inside
Pierce the chest of a God!

Who is the hard charger?
Liar
And my fist in place
{of} your mouth

You've been a bad dog
Locked in, moralize the sounds that surround my nerves
Twitching to please you
Try that shit again motherf**ker I'll knock your teeth in

It's hard charger
Liar
My fist in place
{of} your mouth
Come play my games
Wake up...

And I'm never going back there once again
And I loved her so much I was afraid
And to sit here in the silence, listen for cries, oh I,
I've been denied

I moan, I miss you
Like a beggar to Christ, what I wish of you
Grown on the outside
It'll come out of our salary, in similar effect

It's hard charger
Liar
My fist in place
{of} your mouth
It's hard charger
Liar
Come play my games
Wake up...

Never f**ked her never
I give it back to you
Never f**ked her never
Yes back to
Never f**ked her never
Give it back
Never f**ked her never
Give it back

And I'm never going back there once again
And I loved her so much I was afraid
And to sit here in the silence, listen for cries
No I've been denied
No I'm never going higher...
No I'm never going higher...

No I'm never going higher...
No I'm never going higher...
