

Shaded Red, Fear Not

I move in, in closer to you
The breath you breathe I supply
For countless times I've called out
With an everlasting love, everlasting love
(Chorus)
Fear not now, fear not now
Hear what I'm saying to you
You can trust now, let your guard down
Let my love embrace you
The life you need I provide
Though you're far from me, my arms are opened wide
I will search, I will find, I will run, I will run to you
For countless time don't you know I've been calling you
