Shades Apart, Chasing Daydreams

Watch the night sky at my window
While the world is fast asleep
I stare into the unknown
I will have no fear as long as you're with me

I will catch your fall- I'll keep the world away
Chasing after daydreams- I am unafraid
Catch me if I fall- in your arms I'm safe
Chasing after daydreams

World gone mad outside my window
Try to buy a higher life
I won't need another thing
I will go on dreaming if you stay with me

I will catch your fall- I'll keep the world away
Chasing after daydreams- I am unafraid
Catch me if I fall- in your arms I'm safe
Chasing after daydreams

Let them tell secrets about us
Jaded words don't mean a thing
We are just beginning
There's no limit we will go on chasing dreams

I will catch your fall- I'll keep the world away
Chasing after daydreams- I am unafraid
Catch me if I fall- in your arms I'm safe
Chasing after daydreams
