

# Shades Apart, Dude Danger

## Promise

Welcome to a world of promise  
These smiling faces are your friends  
All this happiness is certain  
Unless of course you don't fit in

## Fall in line

Pretend like you don't mind  
Get in the know unless you've had enough time to get dangerous

## Laughing

Why are all these dudes so happy  
Our hero questions the big joke  
Stop it make them all just disappear  
He's never felt so all alone  
Now's the time  
There's not need to hide  
He's got to let them know  
Look's like he's had enough  
He's getting dangerous  
I wonder who's laughing now
