

Shades Apart, Edge Of The Century

Whoa a oh oh oh oh (x4)

Is anyone out there at all?
Does anybody hear my call?
I'm on a channel all my own
Tuned in from the twilight zone

My space is Juliet
She's the best thing mentioned yet
Whenever I see her again
All my lonely days will end

Now,
I search all over the universe

At the edge of the century, yeah
At the edge of the century, yeah
Feel so lonely, am I the only
One left on Earth?

At the edge of the century, yeah
Count down to infinity, yeah
Feel so lonely, am I the only
One left on Earth?

Whoa a oh oh oh oh (x2)

Is anyone out there for real?
Does anyone feel like I feel?
Caught in a science fiction scene
That never made it to the screen

My space is Juliet
This stage is desolate
Before the first act was complete
The shooting starlet hit the street

Now,
I search all over the universe

At the edge of the century, yeah
At the edge of the century, yeah
Feel so lonely, am I the only
One left on Earth?

At the edge of the century, yeah
Count down to infinity
Feel so lonely, am I the only
One left on Earth?

Whoa a oh oh oh oh(x4)

Now,
I search all over the universe

At the edge of the century, yeah
At the edge of the century, yeah
Feel so lonely, am I the only
One left on Earth?

At the edge of the century, yeah
Count down to infinity
Feel so lonely, am I the only
One left on Earth?

I feel so lonely,
Am I the only
One left on Earth?
