

Shades Apart, Way Out

I found a way out
Sick and tired of hearing how good things used to be
Live my life for me
I found a way out
You only brought me down
You wanted me to share in your misery
Is it so cool to whine?
I can only laugh about what happened to me
Finally out
I know what you're about
Tired of hearing how things aren't good anymore
Leaving you behind
Won't listen to your lines
I found out just in time
Not going down
