

# Shaggy 2 Dope, Forever & Always

I'm neva gonna die cause I belong alive  
I'm the mutha f\*\*kin proof only the strong survive  
I've never been in Folcom I never changed to apease  
Never gonna car crash or catch a lame disease  
You'll always see me on a trycicle big as a car  
Tricked out with three fat bithces on the handle bars  
A mutha f\*\*kin clown pimp, never passin away  
And I'll ALWAYS be your homie from way back in the day  
Death can't have this cause I'm quicker than bullets,  
Red necks try to hide from me sniffin they mullets  
But I can spot them out fast pack a hurt until it bottoms out  
Never take a ride in one myself thats what I'm talkin about  
Nope, never leavin I'll never stop breathin  
I'll always be a heathin never leave my momma grieven  
I'll never get old, never get week forever more  
I run the under ground from here to equidore  
NEVA GONNA DIE

(X4)

I'm forever and ever and ever, Forever always

I'll never fade to black, never replay the shit I say  
You can't find me box me or burry me away  
I'm on the south west side son runnin down Casper  
Bein chased by some thugs in a car I run faster  
I'm never gonna die cause I'm part of somethin bigger  
Never gonna flat line, never need no grave digger  
This the real whicked shit from Detroit, the running man  
When the summer streets heat up and the murdas come again  
I'm never gonna die slow, I'm never goin quick  
Never leave the world as long as fat chicks blowin dick  
I'll never die broke or ritch, I'll never die at all,  
I'll be here the mutha f\*\*kin sky falls  
Let the floor collaps I'll forever drop with it  
I'll never lose signal never stop transmittin  
I will never die put that on &quot;All that I got&quot;  
Forever chokin that sripper tie it all in a knot  
I WILL NEVA DIE

Never be history, I'll always be the future  
Swan divin off the renisance with out a parachute  
You gotta see me smack the floor see me bounce back for more  
See me parasalein through the biggest hurricane you ever saw  
I'm never gonna die, put that on a commet in the sky  
When it smaches in the Earth I jumpin on to catch a ride  
Every year I'll still be here but from another stratusphere  
I'll neva die and though I hope you f\*\*kers know now that is clear
