

Shaimus, Slow Down

Yeah I'm writing this song for you
For the ones I knew
Oh forgive me it's been so long
I hope to see you soon
How are things for you today
You live a thousand miles away
And does it really seem so long
Since we've been eager to be where we are now?

And now we're here and now we want to

Slow down
Want to slow down
We've been running right through the afternoon
Till the evening comes around
Slow down
Share what we've found
We've been flying for such a long long time
It'd be nice to touch the ground

Do you ever wish you could rewind
Just to be there one more time
This time around you'd be sure
With all the shit you know, you know you'd be alright
And where we are today
Will seem a thousand miles away
And you know it won't take too long
To bring us right on back to where we are now

And now we're here and now we want to

Slow down
Want to slow down
We've been running right through the afternoon
Till the evening comes around
Slow down
Share what we've found
We've been flying for such a long long time
It'd be nice to touch the ground

And now we're here and now we want to

Slow down
Want to slow down
We've been running right through the afternoon
Till the evening comes around
Slow down
Share what we've found
We've been flying for such a long long time
It'd be nice to touch the ground
