

Shakaya, Stop Callin' Me

Chorus x 2

Stop callin me, callin me
Please stop stalking me, stalking me
Just a fantasy, fantasy
That you have with me

(Verse 1)

Well I'm dressed
Ready for a night with the girls
Hair stiff with gel
Just for my curls
Not out for hooks
Just for a look
She lied as she tried to introduce me
To her friend
I shook his hand and said
" I gotta man "
From the look that he gave
A woman that he craves
I'm just trying to behave like ME

Chorus x2

At home, a knock on the door
Then the phone, pick it up some
Breathing then a tone
Check the door
But whoever was there is gone
Who knows who left the letter with the rose
Regret it
Don't forget i got a man at home
My point, ya!
Gotta leave me the hell alone

Chorus x 2

(Bridge)

Don't call me on my phone
And tell me how did you find my home
Your causing trouble for me and my man
Understand
I'll never be your woman

Chorus x 4
