

# Shakin' Stevens, A Little Boogie Woogie

All right tonight's the night  
Tonight I've made my mind up  
It's time to get it right  
Just like we did before  
Tonight's the night all right  
And though I know you ain't quite sure  
You're getting all excited 'cause you don't know what's in store

So what you've got to do  
Is keep our little secret  
Do what I tell you to  
And leave the rest to me  
I'm guaranteeing you  
When I get in this kind of mood  
I've got a little something I can introduce to you

(A little boogie woogie) ah ha  
(A little boogie woogie)  
(A little boogie woogie) all right  
'Cause when I'm inclined I usually find  
A little boogie woogie in the back of my mind  
'Cause when I'm inclined I know I can find  
A little boogie woogie in the back of my mind

Hey today's the day I lay it on the line  
The way to make you stay and keep me company  
It's time to get my way 'cause night time is the right time  
And when I'm feeling fine I like my action guaranteed

All right tonight's the night  
I can't wait any longer  
I'm turning out the light and locking up that door  
You might put up a fight  
But you'll be crying out for more  
When you'll be getting what you really came here looking for

(A little boogie woogie) ah ha  
(A little boogie woogie)  
(A little boogie woogie) all right  
'Cause when I'm inclined I usually find  
A little boogie woogie in the back of my mind  
'Cause when I'm inclined I know I can find  
A little boogie woogie in the back of my mind

All right tonight's the night  
I can't wait any longer  
I'm turning out the light and locking up that door  
You might put up a fight  
But you'll be crying out for more  
When you'll be getting what you really came here looking for

(A little boogie woogie) ah ha  
(A little boogie woogie)  
(A little boogie woogie) all right  
'Cause when I'm inclined I usually find  
A little boogie woogie in the back of my mind  
'Cause when I'm inclined I know I can find  
A little boogie woogie in the back of my mind

'Cause when I'm inclined I usually find  
A little boogie woogie in the back of my mind  
'Cause when I'm inclined I know I can find  
A little boogie woogie in the back of my mind  
A little boogie woogie, woogie boogie woogie

Repeat to fade
