

# Shakira, Ultimato momento (english)

What happened to me  
Was a deep impact  
Here in my heart  
When I heard about it  
I found your gaze and your voice  
While I search for my soul  
That's the way it started  
It was delivered in the sidewalks  
This world was already in motion  
With its rotation but  
It didn't matter to us  
Now you tell me  
I like you and to keep quiet  
Underneath your glance of your gaze is a empty hole  
It's my emotion  
And when the telephone rings  
It frustrates me when its the wrong number  
No please  
Chorus:  
Extra! Extra!  
The news is that I'm in love  
Extra! Extra!  
Enough with empty days, I love you  
Extra! Extra!  
The newspapers should have proclaimed it  
Extra! Extra!  
Extra! Extra!  
Extra! Extra!  
What happened to me  
In the streets the children of God  
Were talking about altar boys  
It didn't upset me  
That's the way it happened  
Against my will you brought me love  
And the truth is that the best thing  
That happened in my life  
The mailbox is asking for your letters  
Now you tell me  
Even though metal is stronger  
Some day it will rust  
And that's what happened  
I don't know why the headlines don't forget  
And they beat at my wounds  
By hearing it
