

# Shalim, Come Down

I loved you all my life  
Even before we met  
It was a promise of you  
That my heart could not forget

It's all about faith; it's all about love  
It's all about trust it's all about us  
The simple things the simple dreams  
It's all I ever needed to believe

So here is my heart for just the asking  
Here is my soul for you to share  
I give my all to you completely  
My life's forever yours with time to spare  
Although I never realized it  
One thing you made me understand  
That time plus time is destiny  
It comes naturally, it comes free  
So come down

If love is blind i don't wanna see  
Cause through your eyes I know  
All taht I am, all that I wanna be  
Cause you're everything I need  
We take a little we give a lot  
And stolen moments, it's all we got  
Then we're in the middle of something real  
And suddenly it becomes the way we feel

So here is my heart for just the asking  
Here is my soul for you to share  
I give my all to you completely  
My life's forever yours with time to spare  
Alghough I never realized it  
One thing you made me understand  
That time plus time is destiny  
It comes naturally; comes free  
So come down

It's all about faith  
It's all about trust  
It's all about love  
It's all about us  
The simple things the simple dreams  
It's all we ever needed to be free

So here is my heart for just the asking  
Here is my soul for you to share  
I give my all to you completely  
My life's forever yours with time to spare  
Although I never realized it  
One thing you made me understand  
That time plus time is destiny  
It comes naturally, it comes free  
So come down
