

# Shane Mack, Remember To Forget

Remember how you used to hold me?  
And I remember every taste of every last sweet kiss  
And the expression when you told me  
I'm sorry baby but some things just turn out like this

Well, it's been 3 Decembers  
And all I do is remember you  
And you know I remember when we met  
You there on my bed  
And I remember when you said  
I never do things like this  
I remember every breath right up until the day you left off  
Baby I remember you  
But I can't seem to remember to forget

And the line of your favorite book  
Yeah, and even the first time that I saw you cry  
You know I can't live without all the things you took  
Will I ever learn to live with what you left behind?

Cause it's been 3 Decembers  
And all I do is remember you  
And you know I remember when we met  
You there on my bed  
And I remember when you said  
I never do things like this  
I remember every breath right up until the day you left off  
Baby I remember you  
But I can't seem to remember to forget

About how you make me mad  
Than you turned around and you made me love it  
You never could quite be convinced  
Of the kids, the yard and the picked fence  
And everything we were gonna do  
I can't seem to remember to forget about you  
Oh, forget about you  
And you know

It's been 3 Decembers  
And all I do is remember you  
And you know I remember when we met  
You there on my bed  
And I remember when you said  
I never do things like this  
I remember every breath right up until the day you left off  
I remember everything  
But I can't seem to remember to forget

Uuuh, forget about you baby
