

# Shannon Curfman, Love Me Like That

At the bottom of the ocean

If you could hear me call your name

Would the changing tides

Ever turn you away?

At the top of the mountain

At the end of the day

Would you still have a place in your heart

For me to stay?

You're the only good thing

This little girl ever had

Your got to treat me like a good thing

You got to give me all the love I give you back

If you really want to love me

You got to show me that you love me like that

Down in the valley

Where all the wild things run

Would you still be true

Would I be the only one?

Love is a jungle

the hunter is the game

If I love you would you love me just the same?

You're the only good thing

This little girl ever had

Your got to treat me like a good thing

You got to give me all the love I give you back

If you really want to love me

You got to show me that you love me like that

Out in the country

Where the tall grass grows  
Would you really really love me  
'Cause I really need to know  
Back in the big old city  
Would you keep me by your side?  
I've got to know the truth  
Before I let you come inside

You're the only good thing  
This little girl ever had  
You got to treat me like a good thing  
You got to give me all the love I give you back  
If you really want to love me  
You got to show me that you love me like that
