

Shannon Lawson, Are You Happy Now

Hello, how are you
I just had to hear your voice
I know it's late
But it couldn't wait
I know it's been a while
Since we said goodbye
But we both did what we thought we had to do
Just to make it through
I know you're wonderin'
Why I called you out of the blue
Are you really over me
I've gotta hear it straight from you
Are you happy now
I need to know
Do you miss the way
I held you close
If you've moved on
Please, won't you tell me how
Cause I've gotta know
Before I go
Are you happy now
My heart keeps telling me
We both gave up way too soon
On something good
That I don't want to lose
And all this time without you
Is all that I can take
Don't you think
That we made a big mistake
Are you happy now
I need to know
Do you miss the way
I held you close
If you've moved on
Please, won't you tell me how
Cause I've gotta know
Before I go
Are you happy now
Have you forgotten all the good times
And how much we were in love
Could this call change it all
Back to the way it was
Are you happy now
I need to know
Do you miss the way
I held you close
If you've moved on
Please, won't you tell me how
Cause I've gotta know
Before I go
Are you happy now
I've gotta know
Are you happy now
I've gotta know
Oh, are you happy now
Are you happy now
Are you happy now
Yeah
