

Shannon Lawson, Dream Your Way To Me

I can't be with you now
But I know how you are
You're staring up at the sky
And wishing on a star
That I was still there
But I'm closer than I seem
Just close your eyes
And dream your way to me
Dream your way to me
Dream your way to me
I'll hold your hand
We'll fly through the clouds
And when you wake up tomorrow
There won't be a doubt
That we were together
All you have to do is believe
If this is where you want to be
All you've gotta do
Is dream your way to me
Dream your way to me
Dream your way to me
We don't ever have to be apart
As long as you can dream your way to me
Soon we'll be together to stay
When your wish comes true
But until that day
Dream your way to me
Dream your way to me
We don't ever have to be apart
As long as you can dream your way to me
Dream your way to me
