

# Shannon Lawson, Slow Down Sunrise

I can't believe  
That she's here with me  
Right by my side  
I don't want to see  
What will be the end  
To a perfect night  
There's other nights I know  
But can't you find somewhere else to go  
Slow down sunrise  
I want the moonlight  
To keep shining in her eyes  
We've got tonight  
But I need more time  
To hold her tight  
So slow down,  
Slow down sunrise  
Don't take this wrong  
But I've been waitin'  
For this night for so, so long  
Hey, none of this was planned  
But now I'm beggin'  
Surely you can understand  
I know you have to shine  
But do me a favor  
Take your time  
Slow down sunrise  
I want the moonlight  
To keep shining in her eyes  
We've got tonight  
But I need more time  
To hold her tight  
Slow down,  
Slow down sunrise  
Slow down sunrise  
I want the moonlight  
To keep shining in her eyes  
We've got tonight  
But I need more time  
To hold her tight  
Slow down,  
Slow down sunrise
