

# Shattersphere, In The Face Of Anger

I'll never back down in the face of anger

I always live in a world of fear  
It's in my mind, but it has brought me here

Invoking feelings, hating  
Mind and body, separating  
I'll fight till my last breath, but only to take yours away

You'll never breathe again  
You'll never see the light of day  
That's the price you pay

Repel it all away from me,  
In your mind I define transparency
