

SHAUN, So Right (Feat. Yuna)

Hit and run
Came into my life like the morning sun
Won't give up my heart for anyone
You doin' it like you're having fun

Waiting for me to pull the trigger
On our love
You've only been here for a second
Now I'm yours
I can't explain or comprehend
This should feel wrong
Something about you
Something about you
just feels

So right
You make everything feel so nice
And I'm falling for you
With closed eyes

Baby I think you know why

Take your time
This ain't just some temporary high
Baby it's not like I'm gonna die
If you don't feel the same
I'mma be alright

Waiting for me to pull the trigger
On our love
You've only been here for a second
Now I'm yours
I can't explain or comprehend
This should feel wrong
Something about you
Something about you
just feels

So right
You make everything feel so nice
And I'm falling for you
With closed eyes

Baby I think you know why
