

# Shaw Blades, Straight Down The Line

You bought a one way ticket  
And you headed down to Mexico  
Said you were gonna find the answers  
To the questions I don't know

You can't help yourself  
It's not someone else  
When you look in the mirror

Tell me what do you see  
Are you thinking of me?  
Yeah

You've got a new age guru  
Sitting cross-legged on the floor  
You're selling some kind of Voodoo  
But I think he only wants to score

You can't help yourself  
No there's no one else  
Take a good look around now

Tell me what do you see  
Are you thinking of me  
Yeah yeah yeah

Straight down the line  
You'll find the answer  
Straight down the line  
You know I believe  
When all's said and done  
You'll be the one  
Straight down the line

You met a Hollywood agent  
With a big house on the hill  
He says he's gonna leave his wife  
But you know that he never will

You can't help yourself  
No there's no one else  
When you look in the mirror

Tell me what do you see  
Are you thinking of me  
Yeah yeah yeah

Straight down the line  
You'll know the answer  
Straight down the line  
You know I believe  
When all's said and done  
You'll be the one  
Straight down the line

Is it time to make a reservation  
Do you need a ride to take you home  
Or will it always be  
Destination unknown  
Do you need a little recreation  
A little something that will  
Feed your soul  
Don't you love it  
When you finally find your way home

Oh yeah

Straight down the line  
You'll find the answer  
Straight down the line  
You know I believe  
When all's said and done  
You'll be the one  
Straight down the line
