Round of Blues

S. Colvin - L. Klein

Here we go again

Another round of blues

Several miles ago

I set down my angel shoes

On a lost highway

For a better view

Now in my mind's eye

All roads lead to you

Chorus:

So wherever you go

You better take care of me

This time

If you're gonna go

Remember me and all

This time

We had our bitter cheer

And sweet sorrow

We lost a lot today

We get it back tomorrow

I hear the sound of wheels

I know the rainbow's end

I see lights in a fat city

I feel love again

Chorus

All this time

I been makin' deals

Shades of black and white

On a Hollywood reel

All this time

I been missing

Something so real

All this time

I been a face in the crowd

Now I'm living in color

And laughing out loud

All these names

For just foolin' around

It's a new breakthrough

It's an old break down

We smoked a lot of hope

We did our cryin' , too

We're finally waking up

To what real love can do

Down a lost highway

Under the twilight moon

A chorus in your eyes

Another round of blues

Chorus

We had all

This time

We had all

This time
