

Shawn Emanuel, Slow It Down

Verse1:

U've been here
All night long
Standing here
On ur own
It's not like u aint got attention from
Other guys
Don't tell me that's
What ur like
I saw u here
The other night
Dancing to this song

Pre-chorus:

I asked u once before
I will only ask once more

Chorus:

In ur mind just
Slow it down
I know this beats a lil fast, but still u can
Grind it down
I know u got imagination, girl u should
Slow it down
Let's bring it back to the old days when we would
Grind it down, down, down

Verse2:

Damn u know how to work it
Makin me work to earn it
What else can i do to get u too
Dance wid me
The music jumpin
But we can jus improvise and
Make it about u and me

Pre-chorus:

I asked u once before
I will only ask once more

Chorus:

In ur mind just
Slow it down
I know this beats a lil fast, but still u can
Grind it down
I know u got imagination, girl u should
Slow it down
Let's bring it back to the old days when we would
Grind it down, down, down

In ur mind just
Slow it down
I know this beats a lil fast, but still u can
Grind it down
I know u got imagination, girl u should
Slow it down
Let's bring it back to the old days when we would
Grind it down, down, down

Bridge:

Girl there's nutting more i can do
Nutting more i can say
I've layed it on the line
Do u want me to walk or stay?

I don't understand why it's so hard
I only want a bit of ur time
Im going through all this
Cause i jus wanna dance wid u

Instrumental break:

Chorus:

In ur mind just
Slow it down
I know this beats a lil fast, but still u can
Grind it down
I know u got imagination, girl u should
Slow it down
Let's bring it back to the old days when we would
Grind it down, down, down

In ur mind just
Slow it down
I know this beats a lil fast, but still u can
Grind it down
I know u got imagination, girl u should
Slow it down
Let's bring it back to the old days when we would
Grind it down, down, down
