

# Shayne Ward, No U Hang Up

You got my attention at hello  
We had this connection that wouldn't let go  
There was something sexy 'bout your voice  
Anything you say makes a beautiful noise  
And now we break up to make up right away  
(We make up right away)  
Just an excuse to lay in bed all day  
(We lay in bed all day)  
I know that this thing we have  
won't ever change  
And that's why I have the confidence to say  
Chorus

A lot of girls are sexy  
But you know how to use it  
You can keep me up on the phone all night  
We say lets hang up on three  
but we don't ever do it  
Ain't it crazy how after all this time  
We got that you hang up  
no you hang up kinda love  
We got that you hang up  
no you hang up kkinda love  
Every time you call me I won't lie  
I still get the goosebumps I felt the first time  
That I saw you walk into a room  
Girl you had me hooked  
on yhat beautiful view  
And now we break up  
And now we break up to make up right away  
(Oh we make up right away)  
Just an excuse to lay in bed all day  
(And we lay in bed all day)  
I know that this thing we have  
won't ever change  
And that's why I have the confidence to say  
Chorus

A lot of girls are sexy  
But you know how to use it  
You can keep me up on the phone all night  
We say lets hang up on three  
but we don't ever do it  
Ain't it crazy how after all this time  
We got that you hang up  
no you hang up kinda love  
We got that you hang up  
no you hang up kkinda love  
And baby you still know  
just how to blow my mind  
And after everything that we've been throught  
It still feels right  
And I know that I can't  
Picture living my life without you  
Yeah Yeah

Chorus x2

A lot of girls are sexy  
But you know how to use it  
You can keep me up on the phone all night  
We say lets hang up on three  
but we don't ever do it  
Ain't it crazy how after all this time  
We got that you hang up  
no you hang up kinda love  
We got that you hang up  
no you hang up kkinda love

We got that you hang up  
no you hang up kinda love (repeat)
