

Shea Seger, Clutch

So there, you got me in your clutch again
So there, so there
I love your touch and that voodoo that you do so well
It's got me spinning around and round
So let me in your world
Let me in your world for a while
Let me in your world so I can sing to you

Oh no you got me going crazy for you baby
Oh no you made me go insane for you baby
So there you got me in your clutch again
And this living is strange
We count our feelings in yesterdays
But is that how you keep me in your clutch baby
Is that how you keep it darlin'
Let me in your world
Let me in your world for a while
Let me in your world so I can sing to you

Oh no you got me going crazy for you baby
Oh no you made me go insane for you baby
