

Shea Seger, I Love You Too Much

There's a letter I wrote to you
On the bathroom sink
It's burning a hole
And it's the truth can stand it
It's full of words
It's full of love
It's full of me
It's full of choices
Now can you stand it
I've entertained your point of view
I've one so far as to even follow you
Maybe now you'll see
Yeah you'll see

I love you too much baby
For you to be with me
I love you too much baby
And I know you want to be free

There's a giant step between love and understanding
Baby I think you stopped at love
But sooner or later you're gonna take me as I am
Learn to hear these sounds and try to understand
To understand

I love you too much baby
For you to be with me
I love you too much baby
I'm gonna set you free

I love you too much baby
For you to be with me
I love you too much baby
