

# SHeDAISY, Rush

(Kristyn Osborn, Marcus Hummon)

To be the first in someone's life  
To set the sun and raise the moon  
In someone else's eyes  
To see heaven Just for a day  
To hold a moment in your arms  
And never let it slip away  
To leap off a mountaintop

Chorus:

And feel the rush of love  
To taste that holy kiss  
I could never get enough of this  
This rush  
This rush

To touch the earth before you fall  
To know that here and now with you  
Remains forever after all  
To hear the beauty in dissonance  
To finally know that all our questions  
Make perfect sense  
To touch the surface and breathe the air

Repeat chorus
