

# Sheila Nicholls, Come To Me

Baby I must leave you soon  
It's all I know how to protect myself  
Oh you say you wanted more  
And I reveal and then I shout  
OH Oh, I'm the fool  
If I can't find you anywhere  
And I am left here on this beach  
With these fruits of ours, they are rotting in the sun

Come, Come to me, again  
This time I will give you mine  
Come to me, again  
This time...

I've been quizzing all the trees  
One by one  
What they know of your alchemy, please  
Cause you reveal myself to me  
In my darkest place, you've unlocked and left my cells  
And disappear without a trace

Come to me, again  
This time I will give you mine now  
Come to me, again  
This time...

It's all I know how to protect myself  
How to protect myself
