

# Shenandoah, Bury Me

Look away  
don't talk to me like you know me  
stay away  
don't look back  
because you've done this once again

Bury me  
Face first in your heart  
Bury Me  
I don't need you anymore  
Bury me  
I've had enough  
Bury me  
but, Bury me alone

This whole thing  
Has taken a turn for the worst  
keep it down  
don't touch me  
i can smell where you were last night

Don't hold on to me  
Let me go, in to the dirt  
Don't hold on to me  
This is what it is to hurt  
Please hold on to me  
I don't wanna be alone  
Just hold onto me
