

Shenoah, Bury Me

Look away, don't talk to me
Like you know me
Stay away, don't look back
Because you've done this once again

Bury me
Face burns steal your heart
Bury me
I dont need to anymore
Bury me
I've had enough
Bury me
So bury me alone

Your so vain, I'm sticking up for the worst
Keep it down
Don't touch me
Cause I can smell where you were last night

Bury me
Face burns steal your heart
Bury me
I dont need to anymore
Bury me
I've had enough
Bury me
So bury me alone

(I've had enough, I've had enough, Face burns steal your heart)

I've had enough
Don't hold on to me (send you into the door)
Don't hold on to me (this is what iy means to be alone)
Please hold on to me, I dont want to be alone!
Just hold on to me!

Bury me
Face burns steal your heart
Bury me
I dont need to anymore
Bury me
I've had enough
Bury me
So bury me alone

(Bury me alone)
