

Sheryl Crow, Love Me Like That

Well you stole my heart
And I'll get it back.
But look me in the eye, babe.
Tell me why you love me like that.
Why you love me like that.

Well I've walked this world
Five times or more.
And after all this walking, babe
Still got me crawlin' on the floor.
Crawlin' on the floor.

And I know
This world keeps on turning.
Keeps me yearning.

(Chorus)
How can you turn and walk away?
Pretending everything's okay.
How can you turn your back?
Tell me why you love me like that.
Why you love me like that.

Well I thought you listened,
But I'm shattered like broken glass.
Well I thought that we'd be different, babe.
Yeah I thought that we would last.
I thought that we would last.

And I know
This world keeps on spinnin'.
Every minute that you're in it.

(Chorus)

(Bridge)
Love me or leave me, baby
But don't lead me on.
With lovin' like yours,
Believe me baby, I'm better off
I'm better off alone.

Well I was your gypsy
Throwin' diamonds at your feet.
Driftin' round you like a satellite
I gave you everything you need.
Everything you need.

And I know
This world keeps on turning.
Keeps me yearning and yearning.

(Chorus)

How could you just break away?
Why can't you find the words to say?
Love is something you work at.
Tell me why you love me like that.
Why you love me like that.
Why you love me like that.

How can you throw us away
Look at what you lost and
Now everything is shades of grey

And now you're pushin' me away
Say all the things you need to say
I thought we were goin' all the way
Play all the games you wanna play
Slowly that we just fade away.
