

Shevon Nieto, Through The Good And The Bad

Through the years that we've had together
There's a love that will last forever
You will see that to get through the weather
It ain't easy to have that we have

Made a vow that we could never ever
Break the bond
That we made to each other

We will stay rich or poor
Our love's the treasure
It ain't easy to have what we have
Through the good and the bad

Through the good and the bad
All I ever needed was you
I'll hold your hand
And do anything I can do
To give you all of mine
Through the good and the bad

Sometimes we fuss and fight
But then we make up
Makes no difference who's right
Who's wrong or better

Long as we kiss goodnight and get up
It ain't easy to have what we have

We don't care what they say
We'll do whatever
To keep our love the same
Don't need the pressure

Long as you're by my side
We'll grow together
It ain't easy to have what we have
Through the good and the bad

Through the good and the bad
All I ever needed was you
I'll hold your hand
And do anything I can do
To give you all of mine
Through the good and the bad

Now we stand here together
Cos we made it
There's a love that will last
And if the times get too tough
You know we'll make it
Through the good and the bad
