

Shiny Toy Guns, Chemistry Of A Car Crash

You're waking up
A part of me i've never known
And i've never felt
So invincible
What took you so far away?

You're lost for tonight again
That's what you wanted?
Your arms to your side again..

Just take away the words i say
Cause i know
That you don't feel the same
Just go and say
What's in your head
And i won't try to stop you

You hold the rights i'll never own
And i've never felt
So alien
Don't tear us apart again

What is the use of it
We're ok :) it's nothing . .
It's all chemistry of a car crash

And i won't try so you'll stay
This time
I won't try
And i won't change
This time i won't try
To stop you
