

Shonen Knife, Explosion

Nothing's gonna start if you and I do nothing
Nothing's gonna change if you and I are only waiting
Nothing's gonna move if you and I see only one thing
Nothing's gonna work but I can't change the system of this world
Hey money junkie, What are you living for?
I burn with anger. I set time bombs everywhere
Explosion! Explosion! If I leave it as it is and break away
Explosion! Explosion! I can't wait. There is no time anymore
I'm very hungry. Bring me something to eat
I'm getting angry. Destroy everything. It's like a battle field
Explosion! Explosion! If I leave it as it is and break away
Explosion! Explosion! I can't wait. There is no time anymore
Something's gonna start if you and I do something
Something's gonna change if you and I get going
Something's gonna move if you and I see everything
Something's gonna work and you and I can conquer this world
Explosion! Explosion! If I leave it as it is and break away
Explosion! Explosion! I can't wait. There is no time anymore
Explosion! Explosion! If I leave it as it is and break away
Explosion! Explosion! I can't wait. There is no time anymore
