

Showtek & Zany feat. DV8, It's The Santa

It's the santa
He's coming into town
Because it's Christmas and love is all around
Bells are ringing
Snow is falling down
Yes it is christmas
And love is all around
It's the santa
He's coming into town
Because it's Christmas and love is all around
Bells are ringing
Snow is falling down
Yes it is christmas
Let's make it fucking loud!
It's a shout out to all the crowds around
Keep your head up, don't let them put you down
It's time to stand up, that's what it's all about
Unite as one now,
And make it fuckin' loud.
It's a shout out to all the crowds around
Keep your head up, don't let them put you down
It's time to stand up, that's what it's all about
Unite as one now,
And make it fuckin' loud.
It's a shout out to all the crowds around
Keep your head up, don't let them put you down
It's time to stand up, that's what it's all about
Unite as one now,
And make it fuckin' loud.
